25X1

1. [] This office continues to have a need for secure voice services to the [] (1978-1982 requirements) and the [] (1979-1983 requirements). We believe both requirements warrant priority consideration because of the sensitive activities which go on between [] and these installations. Service to the [] is our first priority.

25X1

2. [] The communications support requirements projected in reference b for these installations during fiscal year 1981-1984 are still to be considered in your future planning. It is hoped, however, that the secure voice capability can be established with the April/May 1979 delivery of the KY-70 terminals.

3. [] It would be appreciated if you would keep us informed of the status of our requests. [] of the Plans and Programs Staff, Office of Logistics, will coordinate
